RAILWAY COMPANY GETS THE VERDICT

After wrestling with the issues for six hours and forty-two minutes the jury trying the suit of the Japanese, Oto, against Oahu Rallway & Land Co, found a verdict last night for the defendant. Shortly before 3 p. m., having retired at 11:58 a, m., the jury came into court for further instructions. Judge De Bolt explained certain points already given to them and the jurors, the attorneys on both sides consenting, were allowed to take the written instructions to the jury room. About 5 o'clock they came back for more enlightenment and by direction of the court Stenographer Horner read evidence to them for the greater part of an hour. The verdict in favor of the railway was returned at 6:40.

Oto sued for \$5000 damages for the killing of his child, a boy of four years, at the crossing of a public road by the railway at Ewa Mill. A train crew was making a flying switch of two cars at the time and the cars ran over the child. The question that stuck the jury so long was that of negligence on the part of the trainmen.

The case was fought hard on the trial by Geo. A. Davis and S. F. Chillingworth for the Japanese and A. G. M. Robertson and Robbins D. Anderson for the rallway

Fire Chief Thurston was next. He said that if a cut in salaries was made in his department he would be unable to secure the kind of men he wanted, for by the time a man got to be valuable he would quit just as soon as a better job offered. The business com-munity depended on the department. As it was the department was crip pled. There had been a hook and ladder in the department for several years but there was no money to pay men to put it in commission. Because Honolulu doesn't have many big fires is no reason why a big blaze shouldn't occur at any time. He thought that the difference of \$400 could be made up somewhere else.

J. Gilman, representing the board of fire underwriters, protested on their behalf against any decrease in the department's appropriation. "Protest's don't go here," said Hus-

It was suggested that the \$400 cut The Healani swimming team has in the fire department's estimate be made up by cutting the Koolauloa and Honolulu \$150.

We beg to call the attention of the Honorable Board of Supervisors of the County of Oahu to the fact that between the months of March and July, 1996, without the knowledge of either of us, the road department caused to be excavated the roadway in front of premises on Lehua avenue, Pearl to a maximum 5 per cent. grade with City, District of Ewa, County of Oahu: such excavation reaching in places to the depth of eight feet. Because of this excavation, our taro lands adjoining this roadway are leaking badly railroad as it was not deemed advis through the banks and causing the earth to siide down, the recent heavy rains causing the sliding of more earth. The former Board of Supervisors had set apart a certain sum of money to be paid monthly for the care and maintenance of the park, and this money, instead of being used, or a part of it, at any rate, for the care and repair to the roads, has been used only in beautifying and caring for that portion of the park that lies mauka of the makai main avenue or drive and of the individuals who own property fronting on the beach,

KEIZO WILL NOT HANG TUESDAY

His Execution Stayed Under an Appeal to the Federal Supreme Court.

Morita Kelzo's execution for murder, under the death warrant appointed for Tuesday next, has been forbidden by writ of supersedeas issued out of the Territorial Supreme Court. An appeal of the condemned man, on a writ of error to the court just named, goes to the Federal Supreme Court,

In one respect the Advertiser of yesterday was under a misapprehension in its report of habeas corpus proceedings on behalf of Keizo. It was not from U, S. District Judge Dole that the temporary writ was obtained by Mr. Humphreys, but from Chief Justice Frear of the Supreme Court.

Yesterday morning the Supreme Court denied the petition for a writ of habeas corpus, but granted a petition for a writ of error-a clear right of the prisoner-on which a writ of supersedeas to stay the execution of the last penalty of the law was issued. The granting of the prayer for a writ of habeas corpus by discharging the prisoner would have been a reversal of its former decisions, as the ground of the petition was the same as that of Keizo's appeal to the Territorial Supreme Court and of his subsequent motion for a rehearing-namely, the alleged illegality of the grand jury that indicted Kelzo from the fact that eight of the grand jurors had been natural-

ized by the Territorial Circuit Court. The course taken by the prisoner's new counsel is more surely direct than would have been a writ of habeas corpus out of the U. S. District Court. This latter was an alternative to the mode of a direct appeal which his for-mer counsel, Mr. Gear, had fully prepared to use.

Following is the form of the writ of supersedeas issued: United States of America.
